

Who Are We?

We are a large general practice with a catchment area covering most of Cheltenham.

We work between two sites, the main being Weston House Practice based in St Paul's Medical Centre and a branch Surgery located in Hatherley.

Practice Mission Statement & Values

Weston House Practice aims to provide high quality needs-sensitive, timely and appropriate primary healthcare to all our patients within a supportive, multi-disciplinary team, which reflects on performance, facilitates learning and is open to change. In addition, alongside recognising the needs of the business, we aim to preserve the health and well-being of all members of the practice team.

Appointments

When you telephone the surgery, please be aware that the receptionists will ask you a series of questions. This is purely to ascertain how urgently your problem needs to be dealt with and to ensure you are booked in with the most appropriate clinician.

To ensure that we run to time as much as possible please only have one problem per appointment.
